

REDILEARNING IN AGREEMENT TO CO-DEVELOP ACHCA “LEADERSHIP INSTITUTE” CONTINUING EDUCATION

New plan marks a significant expansion from previous Webinar relationship.

DELRAY BEACH, FL – RediLearning, Inc. has announced that it entered into a new agreement with the American College of Health Care Administrators (ACHCA) to collaborate in developing the *ACHCA Leadership Institute*, a blended learning solution for this prestigious long-term care professional membership organization. Leadership, on the part of their members, is the organization’s mission. RediLearning acquired a keen understanding of ACHCA educational values through its role in producing and marketing an initial series of Webinars, devoted to the new MDS 3.0 changes affecting Skilled Nursing Facilities. The announcement was made by Michael Hemlepp, Chief Executive Officer of RediLearning Corp.

“This is a major step for our organization in associating RediLearning with ACHCA,” Mr. Hemlepp said, “We have the know-how to bring expert professional leadership content to its membership in a 24/7 delivery environment with a compelling multimedia content platform. A big part of our collaboration now enables the ACHCA to create and release CEU-earning curricula more widely and much more quickly.”

Beyond co-development of time-sensitive training, the agreement calls for RediLearning to provide needs assessment, programming and content, speakers, program management and execution, IT services and solutions, implementation and back-end support, billing and collections, marketing and program evaluation. Though continuing education is the focus of the RediLearning-ACHCA association, a more generalized collaboration for mutual interests is a stated objective of both organizations.

“The opportunity for the American College of Health Care Administrators to partner with RediLearning in order to provide leadership education, not only to our nursing home administrators, but to leaders in long term care everywhere is phenomenal,” said Marianna Kern Grachek, ACHCA President & CEO.

-- more--

ACHCA providership of continuing education accreditations with the National Association of Long Term Care Administrator Boards (NAB), and key State Boards, extends to the new co-developed *Leadership Institute* courses and curricula covered by the agreement. ACHCA will issue CEU credit certificates to qualifying participants, and RediLearning will display the accreditation approval on its websites and certificates granted to online course users.

“This is all about Synergy and good fit,” Ms. Grachek added, “We believe that the American College of Health Care administrators has the content expertise and we have the long-term care experts, and RediLearning brings to the table their expertise in technology, and their leadership curricula, and their mission.”
